EDUCATION

Indraprastha Institute of Information Technology, Delhi

B.Tech, Computer Science and Applied Maths

2016 - Present

Overall GPA: 7.96/10

Delhi Public School, Rohini

Central Board of Secondary Education

2014 - 2016

Percentage: 95.2

Delhi Public School, Rohini

Central Board of Secondary Education

2014 - 2016

CGPA: 10.0

TECHNICAL SKILLS

Interest Areas

Human Computer Interaction, Computer Graphics

Programming Languages

Java, Python, C++, MATLAB, R, C#

Tools & Technologies

Photoshop, After Effects, Unity, OpenGL, HTML, CSS, Sony Vegas, Arduino, Git, Eclipse, 3D Modeling & Printing,

Relevant Coursework

Scientific Computing, Computer Graphics, Virtual Reality, Image Analysis, Statistical Inference, Linear Optimisation, Stochastic Processes, Analysis and Design of Algorithms, OOP, Winter School on UX Design, Digital Ethnography

EXPERIENCE

IIIT Delhi

Jan 2019 - Present

Teaching Assistant

Teaching Assistant for MTH201: Probability Statistics. Taking tutorials, doubt sessions and checking quizzes and exams.

Center for Design and New Media, IIIT Delhi

Jan 2018 - Present

Undergraduate Research

Guide: Dr. Aman Parnami

Working on interaction design for Wearable technology. We aim to combine scientific research and design to foster powerful and delightful interactions between humans and computers. Previously worked on applications of wearables for soldiers and astronauts.

IIIT Delhi

May 2018 - Aug 2018

Summer Research Intern

Guide: Dr. Pravesh Biyani

Worked on developing methods to optimize the cost of allotting vehicles on transportation demand data. Studied past work on colouring algorithms for dense graphs and analyzed them for our use case. Implemented different allocation algorithms and developed a Flask API to run them.

PROJECTS

AutoScribe

October 2018 - December 2018

The project aims to generate a transcript of the content written on a whiteboard during a class using temporal analysis. Crops and enhances the whiteboard images for increasing readability using image processing concepts such as Hough Transform, Registration and Spatial Filtering.

Avatar Creation and Animation

October 2018 - December 2018

This project is concerned with creating full-body avatar of a real person. Concepts used: Linear Blend Skinning, 3D Modelling, Kinect, 3D Face from Photo using Deep Learning. Rendered using OpenGL and ASSIMP.

Chain Reaction Game

October 2017 - November 2017

A clone of the popular android game, Chain Reaction. Used JavaFX, OOP concepts and Serialization for its implementation.

Do Pixels Matter?

November 2017

A study to find out whether the skill to differentiate between various screen resolutions impact the decision to buy a new electronic device? Conducted interviews, online survey, netnography and semiotic analysis as a part of the research.

Robbin - The Robotic Bin

January 2017 - April 2017

A robotic dustbin to minimise spilt over garbage around a dustbin. Our bot picks up scattered garbage around it, compresses the garbage inside it and sends a message to the authorities when it is ready to be emptied. This was achieved using 5 servo motors, 3 DC motors and a GSM Module all controlled using an Arduino Mega.

Movie for 1st International Agrobiodiversity Congress

November 2016

Created a movie for the first International Agrobiodiversity Congress. The Congress was attended by 900 delegates from 60+ countries and was inaugurated by the Honble Prime Minister, Shri Narendra Modi.

ACHIEVEMENTS

Video Accepted in IJCAI-17 Video Competition

- I created a video explaining a research paper titled "LoCaTe: Influence Quantification in Location-based Social Networks".
- The video was accepted and showcased during the International Joint Conference on Artificial Intelligence held in Melbourne as a part of the AI Video Competition.

Bagged 15+ Trophies at Inter-School Events

- Won prizes in various Audio/Video Editing, Digital Imaging and Surprise events held at various schools in Delhi NCR.

POSITIONS OF RESPONSIBILITY

Hackathons Head, Esya 18 (Annual Technical Festival)
Coordinator, Ink. (Design Club)
Elected Member, Student Senate

Organizer, Design 360 (Annual Designathon)
Organizing Team, Camtech X Jugaadathon
Member, Media Panel IIIT Delhi
